

The Civic Company 1922 Trade List

BACKGROUND

The Civic Company Ltd of London was formed in 1921 out of the Imperial Tobacco Company (Fancy Goods Department) Ltd which was located in Fulham Palace Road Hammersmith. The Imperial Company itself was formed in 1901 in response to an aggressive take over raid in Britain by American Tobacco and involved the pooling of tobacco retail outlets including closely related items such as briar pipes. In 1902 Imperial purchased the Salmon & Gluckstein retail empire, which included a section that finished briar pipes, originally made in France, for sale in Britain. It is this unit that became the fancy goods department within Imperial and, ultimately in 1921, the Civic Company. In 1928 Civic formed a key element in the merger with other producers and retailers that formed Cadogan Investments which still trades today.

This is the second price list to be issued by the newly independent Company.

THE LIST ITSELF

The *Trade List* has 32 pages, 226 x 286mm, has a soft card cover with wire stitches (2 staples). The date 1922 has been written on the top of the outside of the cover in blue pencil.

The 1922 Price List is owned by John Adler.

Condition

It is generally in good condition. The rusting of the stitches has damaged the paper they are in contact with in a number of places, so that the central part of the catalogue is no longer securely attached to the rest.

The cover and first page have suffered slightly from rodent damage on the top right-hand corner.

Loose papers

A Guarantee had been stapled in between pages 16 and 17 but is no longer attached.

A letter to clients, dated October 1922, and designed to accompany copies of the *trade list*, had been inserted, loose, into the catalogue.

All of these pages, including both sides of the cover and the flyer have been scanned as JPEG and PDF files and lodged in the National Pipe Archive in Liverpool.
